

KRIS APF PROGEL

1.23% APF Topical Gel

TECHNICAL & SAFETY INSTRUCTIONS FOR USE

Ingredient:

Fluoride Ion 1.23%. A stable thixotropic gel providing 1.23% fluoride ion. Available from 2.09% Sodium Fluoride and Hydrofluoric Acid.

Indications and Usage:

This is a prescription fluoride treatment gel used to help prevent dental decay. For professional use only. This product is not intended for home or unsupervised consumer use.

Instructions for use:

Shake well before use. This is a one minute or four minute fluoride gel for in-office patient use. It is normally used as a preventive caries treatment two times a year.

1. After thorough prophylaxis, fill two single or one dual tray one third full with gel. Air dry teeth and insert trays into the mouth.
2. Instruct patient to bite down lightly but firmly for one minute (80% effectiveness) or four minutes (100% effectiveness).
3. Remove trays. Instruct patient to expectorate any excess gel and not to eat or drink for at least 30 minutes.

Storage :

- Do not store above 25°C/77°F.
- Do not freeze.

Warning:

- Keep out of reach of children.
- Do not swallow. If product is accidentally swallowed in quantities greater than would normally occur with a treatment gel, seek medical help or contact a Poison Control Center right away.
- Read directions carefully before using.

Disposal Conditions: To be disposed off based on the prevailing rules of the country in which it is used.

Presentation: 1x 450 ml Plastic Bottle Ref No.

Ref No. CI02-01
